SELECTED EXPERIENCE

Lighting Supervisor at Trade School: PHL/LAX

June 2019 Festival

Production Manager Robin Stamey

Part of a group of 3 technicians running the festival. Responsible for creating a repertory plot to suit the needs of all 4 main pieces as well as four work-in-progress showings and a community talk back. Duties included drafting the stage layout in the venue, communicating with lighting designers, and designing 2/4 main pieces and all work-in-progress pieces. Responsible for loading in the rental package, running the board for all performances, and leading a small crew for load-out.

Lighting Director at Nebraska Theatre Caravan

2018 & 2019 National Tours

Technical Director Ethan Hinton

Only lighting specialist in a crew of 8 technicians on a 33 show tour at 17 venues. Responsible for leading a local crew at load-in and during focus, and running the light board during shows. Duties included maintaining conventional and LED practicals, programming effects, and maintaining paperwork. Required to maintain the integrity of the lighting design through a variety of different venues with highly varying structures and equipment.

Electrics Crew Chief at The Lost Colony

2017 Season

Master Electrician Bri Weintraub

Responsible for a crew of 3 electricians/spotlight operators; trained spotlight operators; created and maintained followspot cue sheets; install and upkeep of a 4 month run including: lead troubleshooting teams, ensured efficient communication between crew and management, assisted the ME and AME with circuit and data mapping.

Apprentice Electrician at Santa Fe Opera

2018 Season

Lighting Director Lee Fiskness

Part of an 8 person apprentice team responsible for the implementation and upkeep of a 350 fixture repertory plot; daily changeover and focus; built and maintained practicals involving LED tape and incandescent bulbs; ran shows as spot operator and head deck electrician.
